

Never Forget

## **Anniversary of 911 Remembrance**

**by Ramelle T. Lee**

These moments will be edged in time about  
Tuesday, September 11, 2001.

America and the world will never forget the *Breaking News* reports of the two terrorist airliners that crashed into The World Trade Center's twin towers buildings in New York, within 18 minutes of each other.

It is reported that only a few people were alive  
in the WTC towers at the time of the collapse.

It has also been reported that there were  
thousands and thousands of people who were killed  
in the 110-story towers.

There was an unbelievable amount of people  
who survived these horrific attacks.  
They were treated for their devastating injuries.

Stories of courage and survival were splashed across  
the television and the world watched in total shock  
over the events that unfolded, right before our eyes.

Millions of Americans were in disbelief as  
they witnessed the crumbling of the twin towers in  
New York. This unforgettable image was played  
over and over. News reporters bravely tried to  
stay connected in order to give the world a description of  
what was happening in that moment.

It was mind-boggling to see such a horrific sight.  
Lives were instantly changed forever.

Hundreds of police officers and firefighters bravely  
worked to help others and lost their battle to survive.

We will never forget the brave people who lost their  
lives on Flight 93 and at the Pentagon.  
We are all connected to the tragedy,  
whether we were there or not.

The world watched in astonishment as  
rescue workers, co-workers, military personnel and  
countless others, sacrificed their lives to help one another  
through acts of kindness.

We, as a Nation, were called to pray for America.  
Our hopes and dreams may have been disrupted on

September 11, 2001, but our resolve, hope, freedom and liberty as a People and Nation will remain intact.

We, as a Nation, have the resilience to rise from the ashes of assault and cling to hope for the future.

We know that it is never easy to deal with tragedy.  
All of us deal with issues daily that come  
to defeat our spirit.

We, the People, can stand united in hope, as we face each hour, minute and second of the day.

God continues to watch over the United States of America.  
With God on our side, we, the People, can survive the unforeseen challenges that life brings us.

We, the People, will always observe 911 as a National Day of Remembrance.
